

SOFTWARE ENGINEERING PROPOSAL

B2B ENTERPRISE SOLUTION

// Custom School & College Management Portal + LMS

Date: August 2026
Prepared by: Muhammad Waqas

Prepared Exclusively for: Rai Education System

Target Institution: Primary, Secondary School & Future College Campus Expansion

Current Site: Google Sites →

Executive Objective: To modernize Rai Education System's web presence from a static Google Site into a high-speed, secure, multi-stakeholder custom Web Application. This platform will digitize student admissions, fee tracking, daily attendance, staff jobs, parent communication, and provide a university-grade LMS as Rai Education System expands into College level.

01. CORE ADMINISTRATIVE & ACADEMIC MODULES

🏦 Automated Fee & Financial Engine

Complete real-time fee tracking system for Accountants and Admins.

- Real-time Paid vs Pending fee status tracking
- Automated digital fee voucher & slip generation
- Bank receipt / Cash payment admin approval workflow

👤 Student & Parent Individual Portals

Dedicated login credentials for every student & parent account.

- Student dashboard: Homework, exam results & schedules
- Parent dashboard: Live attendance & fee clearance tracking
- Real-time push notifications & school notices

📄 Digital Admissions & Class Manager

Streamlined student enrollment from Class 1 through Class 10.

- Online admission application forms with document upload
- Automated Roll Number & Section generation
- Class-by-class student directory and teacher assignments

🔒 Role-Based Access Control (RBAC)

Custom security permissions for all institutional stakeholders.

- Portals for Super Admin, Principal, Accountant, Teachers & Parents
- Staff Management & Staff Attendance tracking
- Career & Job Openings portal for teacher recruitment

02. COLLEGE EXPANSION & ENTERPRISE LMS

🎓 Future-Ready Learning Management System (LMS)

As Rai Education System scales from Classes 1-10 into College and Higher Education, the portal seamlessly activates a university-grade LMS. Includes online lecture uploads, assignment submissions, digital quizzes, auto-graded exams, and multi-department stakeholder portals.

03. CURRENT GOOGLE SITE VS CUSTOM SYSTEM

FEATURE MODULE	CURRENT SITE (GOOGLE SITES)	PROPOSED CUSTOM WEB PORTAL
Student & Parent Login Accounts	Not Supported	✓ Dedicated Individual Accounts

FEATURE MODULE	CURRENT SITE (GOOGLE SITES)	PROPOSED CUSTOM WEB PORTAL
Fee Paid / Pending Tracker & Vouchers	Manual Paper Work	✓ Automated Digital Receipts & Status
Online Admissions & Document Upload	Manual Forms	✓ 100% Paperless Digital Enrollment
Staff Job Openings & Applications	Not Available	✓ Built-in Career Portal
College Level LMS & Lectures	Not Supported	✓ University-Grade LMS Ready
